JUNE FARM PRICES RECEIVED INDEX UP 7 POINTS

Indiana's mid-month prices for corn, soybeans, winter wheat, and all milk increased from last year. However, winter wheat decreased from last month, while corn, soybeans and all milk increased from last month.

Nationally, the preliminary All Farm Products Index of Prices Received by Farmers in June, at 181 percent, based on 1990-1992=100, increased 7 points (4.0 percent) from May. The Crop Index is up 12 points (6.0 percent) but the

Livestock Index was unchanged. Producers received higher prices for milk, corn, and broccoli, and lower prices for cattle, lettuce, wheat, and strawberries. In addition to prices, the overall index is also affected by the seasonal change based on a 3-year average mix of commodities producers sell. Increased monthly marketings of wheat, hay, grapes, and peaches offset decreased marketings of corn, cattle, oranges, and milk.
